

## Bass Drum Polyrhythm in 3

[DrumlessonsInLA.com](http://DrumlessonsInLA.com)

This beat implies a polyrhythmic feel by phrasing the bass drum every 3 sixteenth notes in a standard 4/4 pattern. This can feel awkward to play at first, so I like to write out the 16th notes above the measure to see where the notes line up (1e&a 2e&a 3e&a 4e&a). Take it slow and enjoy.
